

Are You Interested in Effective Assessment and Instruction Practices for All Students?

Check out this new course at The University of Montana:

School-wide Assessment and Instruction: Response to Intervention C & I 495

This **on-line** course is available to undergraduate and graduate students. The primary focus is on response to intervention—a school-wide approach to assessment, and instruction for all students.

Learn about various forms of assessment and how you can work collaboratively with school professionals to improve outcomes for all students while preventing academic difficulties.

This course is perfect as an elective for general and special ed, pre-service and in-service educators, and related service providers.

Be on the Cutting Edge of Education!
